General Information

Document Type:	Grants Notice	Version:	Synopsis 1
Funding Opportunity Number:	HHS-2026-ACL-NIDILRR-REGE-0212	Posted Date:	Jun 01, 2026
Funding Opportunity Title:	Rehabilitation Engineering Research Centers (RERC) Program: RERC on AI-Driven Assistive and Rehabilitation Technologies	Last Updated Date:	Jun 01, 2026
Opportunity Category:	Discretionary	Original Closing Date for Applications:	Jul 16, 2026 Electronically submitted applications must be submitted no later than 11:59 p.m., ET, on the listed application due date.
Opportunity Category Explanation:		Current Closing Date for Applications:	Jul 16, 2026 Electronically submitted applications must be submitted no later than 11:59 p.m., ET, on the listed application due date.
Funding Instrument Type:	Grant	Archive Date:	Sep 30, 2026
		Estimated Total Program	\$ 975,000

Category of Funding Activity:	Science and Technology and other Research and Development	Funding:	
		Award Ceiling:	\$975,000
		Award Floor:	\$970,000
Category Explanation:			
Expected Number of Awards:	1		
<u>Assistance Listings:</u>	93.433 -- ACL National Institute on Disability, Independent Living, and Rehabilitation Research		
Cost Sharing or Matching Requirement:	No		

Eligibility

Eligible Applicants:	Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education State governments Native American tribal organizations (other than Federally recognized tribal governments) County governments Public and State controlled institutions of higher education Private institutions of higher education Small businesses Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education Others (see text field entitled "Additional Information on Eligibility" for clarification) Special district governments Native American tribal governments (Federally recognized) For profit organizations other than small businesses City or township governments
-----------------------------	--

Additional Information on Eligibility: States; public or private agencies, including for-profit agencies; public or private organizations, including for-profit organizations; IHEs; and Indian tribes and tribal organizations. Foreign entities are not eligible to compete for, or receive, awards made under this announcement. Faith-based and community organizations that meet the eligibility requirements are eligible to receive awards under this funding opportunity announcement.

Additional Information

Agency Name: Administration for Community Living

Description: The purpose of the Rehabilitation Engineering Research Centers (RERC) program is to improve the effectiveness of services authorized under the Rehabilitation Act by conducting advanced engineering research on and development of innovative technologies that are designed to solve particular rehabilitation problems or to remove environmental barriers. The purpose of this RERC is to conduct research on, develop, and evaluate Artificial Intelligence (AI)-driven assistive and rehabilitation technologies that enhance independence, participation, and quality of life for people with disabilities. Many existing assistive and rehabilitation technologies lack adaptability, personalization, and seamless integration into daily life. AI and machine learning (ML) offer trans-formative potential to address these gaps by enabling smarter, more responsive, and individualized assistive and rehabilitation technologies. AI-driven innovations in assistive and rehabilitation technology can shift them from static tools to dynamic, intelligent systems that continuously learn and adapt in real time to individual preferences, needs, and changing abilities. This grant will have a 60-month project period, with five 12-month budget periods.
